Pirates of the
Constitution

No, we are NOT Citizens for Global Solutions. We are Americans for preserving our Constitution and sovereignty. In case you don't realize it, this U.N. sanctioned, big business group is lying to Congress about the benefits of the U.N. Convention on the Law of the Sea (LOST Treaty). At least that is the case for probably most of the Senate. However, several members of the Senate Foreign Relations Committee that voted FOR this betrayal actually got money from these people for their campaigns.

By the way, if you do a little digging you might find that includes the Chairman, Senator Biden, and the ranking Republican Senator Lugar. This honorably discharged combat veteran was told to leave the Senate Foreign Relations Committee chambers while they prepared for the hearing. (I got there early to get a good seat.) I watched the line grow and grow outside waiting for them to re-open the chamber to the public. It was quite curious to me when I saw four slick-dressed lobbyists waltz into the chamber several minutes before the hearing started. I thought to myself, hmm... these must be invited witnesses to the hearing. But no, this was the first hearing, and no, these people didn't sit in the reserved seating.

Curiosity eventually got the best of me, for I did not recognize the lapel pin the leader of their group wore. The one at the top of this page closely resembles it. These people were from the U.N. group Citizens for Global Solutions. I would like to think that the witnesses that testified, many former high-ranking government officials would have the best interest of the United States at heart... that the Senators listening to their testimony would be able to bank on it that these gentlemen were telling the truth. Senator David Vitter made short work of their lies, embarrassing them again and again by exposing serious issues with this treaty. How far gone is the United States Senate leadership when foreign and domestic enemies are allowed into a Senate Chamber BEFORE combat veterans? I ask you this on Veteran's Day? Have we lost our minds to allow this? We will lose our nation if we don't stop this mess.

- **Do you realize this treaty trumps the U.S. Constitution, our Supreme Court, and the BILL OF RIGHTS???**
- **Do you realize this treaty will give the U.N. the authority to TAX AMERICANS DIRECTLY???**
- **Were it not for our Security Council veto power that the U.N. would already OWN the U.S.?**
- **Do you realize that we do not have any veto power over the 150+ nations that are trying to steal America, and they will be able to out-vote us. Remember the Medellin case the President took before the U.S. Supreme Court last month, our President defending 50 illegal alien convicted murderers on death row? That was because of a treaty. Texas is right. The U.N. has no business meddling in the affairs of Texas. The LOST Treaty will be on the same shelf, in the same binder as the Constitution if the Senate votes for it.**

"We support candidates running for office through contributions from our political action committee (PAC), helping elect public officials who share our values and support the vision we seek to achieve."

Pirates of the
Constitution

Don't take our word for it. These quotes come DIRECTLY from the Citizens for Global Solutions website Veteran's Day, November 12, 2007.

"It's time to get to work. The "America Far Right and Wrong Bunch" – John Bolton, Ollie North, Pat Buchanan, Michelle Malkin and company – are at it again with their frame and blame game. These are the folks who successfully brought you "tax and spend liberal," "kangaroo International Criminal Court," the "Women's Convention supports abortion," and "the Rights of the Child is about kids suing their families." Now they want Americans to believe more lies about the Law of the Sea Convention."

<http://www.globalsolutions.org/los>

The globalists behind this group reference issues facing the world, but their main target is the U.S. Constitution. They have a "think tank" they call the World Federalist Institute (WFI). This is a direct quote from their mission:

"One goal of the WFI is to develop pragmatic proposals ultimately leading to the creation of a democratic global political system with a federal structure." <http://www.globalsolutions.org/wfi>

In layman's terms, that means "ONE WORLD GOVERNMENT."

*"A just world - where the International Criminal Court is universally accepted to try human rights cases if nations lack the will or ability to do so, and the **International Court of Justice has universal jurisdiction** on disputes between nations."* <http://www.globalsolutions.org/wfi>

"When the World Federalist Association merged with the Campaign for UN Reform in January, 2004, to become Citizens for Global Solutions, the World Federalist Institute was created to carry on the tradition of studying and advocating world federation."

The World Federalist Association (WFA) - initially the United World Federalists - was created in Asheville, North Carolina, in November of 1947. Its mission was to "work to create a world federal government with authority to enact, interpret and enforce world law adequate to maintain peace."

<http://www.globalsolutions.org/wfi>

This quote is directly from the web form they want people to fax to the Senate:

*"The Bush administration, the military, environmental organizations, scientific societies, peace groups, legal experts, and **all ocean industries** have made it clear that joining **the Law of the Sea will help us advance our goals.**"*

"All ocean industries..." Really? I doubt that. Exactly whose goals; the goals of "We the People," or of foreign interests? <http://www.globalsolutions.org/los>
